Together tapping into tomorrow

Business Monitor

InterTradeIreland's quarterly Business Monitor is the largest and most comprehensive All-Island business survey across Northern Ireland and Ireland. It differs from other surveys by conducting regular interviews with 750 firms of all sizes across a range of sectors to track All-Island economic indicators such as sales, employment, business position and other specific topical research.

The quarterly Business Monitor is essential reading for any business that wants an insight on current business opinion and market trends.

Simple Guide To Cross-Border Business

A simple guide on everything you need to know about expanding your business into a new cross-border territory, as well as up-to-date regulatory information to keep your business on track.

Research Reports

InterTradeIreland publishes regular All-Island research reports on key issues that are relevant to businesses North and South. Some recent examples are:

“Potential Impact of WTO Tariffs on Cross-Border Trade”

Providing information on how different elements of alternative trade arrangements might impact on overall trade flows on the island, this report looks particularly at the potential impact of World Trade Organisation (WTO) Tariff arrangements and other trade barriers, and how these might be distributed across different sectors and products.

“Cross-Border Trade and Supply Chain Linkages”

Examining the patterns of cross-border trade on the island of Ireland, this report, focuses on the role of supply chain links, measured by the extent of trade in intermediate products and the contribution to overall trade of two-way trading firms (those simultaneously importing and exporting).

All-Island Trade Statistics

InterTradeIreland provides a comprehensive view of cross-border flows on the island through a combination of online interactive graphs and tables.
