Business Monitor Survey Q2 2012

Business Confidence

intertradeireland.com

Key Findings Q2 2012

Just over a fifth (22%) of businesses reported an **increase in sales** in Q2 2012, less than the third (34%) reporting a decrease.

Over a fifth (21%) of businesses said they had **not been profitable** in the last 12 months – more in Ireland (26%) than Northern Ireland (11%).

Less than one in seven (13%) of firms reported they were currently in **growth mode** with almost half (46%) contracting, fighting for survival or winding up.

Over one in four businesses (27%) cite **rising costs** as a very large issue for their firm, closely followed by cashflow (26%).

Manufacturing and Business Services firms (both 31%) out-performed every other sector in sales increases in Q2 2012.

Over a tenth (13%) of firms have **decreased their prices** over the last 3-6 months, particularly businesses located in Ireland, but many fewer than last quarter (34%).

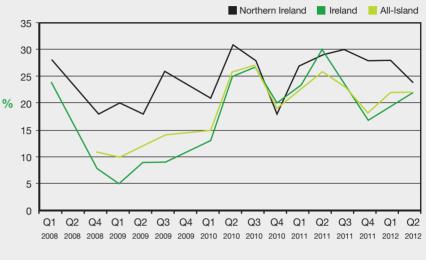

Just over one in ten (12%) have approached banks, venture capital funds or government agencies for **financial support** in the past six months.

Almost three quarters (71%) of businesses **are not members of any formal business networks.**

Sales increases...

The number of businesses (22%) who reported an increase in sales in Q2 2012 remains the same as last quarter. The gap between businesses in Northern Ireland (24%) and those in Ireland (22%) reporting an increase has narrowed again this quarter. There are still many more large firms (35%) increasing their sales than small ones (20%) and Manufacturing and Business Services were again the best performing sectors with a possible seasonal pick-up in sales for the hospitality sector.

(QUARTER/YEAR)

Sales decreases...

There was another small fall in the number of businesses (34%) reporting a decrease in sales. The figures are now close to where they were four quarters ago (36%) after a rise in the intervening year. The gap between firms in Ireland (36%) and their peers in Northern Ireland (30%) continues to close. Small firms (35%), businesses who trade only in their local market (39%) and those in retail (40%) and 'other services' (42%) all report higher than average decreases in sales.

(QUARTER/YEAR)

Employment increases...

Less than one in ten (9%) of businesses across the island reported an increase in staff numbers in Q2 2012, although this is the second quarter to show a small rise. Large firms (27%), exporters (12%) and cross-border traders (12%) are far outperforming the average in this area. In terms of sectors, Manufacturing firms (13%) are better than average with fewer retail (6%) or construction (7%) businesses hiring. (QUARTER/YEAR)

Employment decreases...

Just over one in eight (12%) firms reported that they had decreased the size of their workforces in the previous quarter. This figure has remained the same for three quarters and there is little difference between Northern Ireland (11%) and Ireland (13%). Large firms (17%) have been more active in decreasing their workforces than medium or small businesses. When it comes to sectors the figures are consistent with the exceptions of Construction (17%) and Business Services (16%) which have been laying off more than others.

About the Business Monitor

InterTradelreland commissioned Perceptive Insight Market Research to conduct the quarterly Business Monitor. Each quarter interviews are conducted with 1,000 business owner/ managers across the island of Ireland. The sample is stratified by number of employees, sector, region (Ireland/Northern Ireland) and the data weighted at the overall reporting level to reflect the profile of businesses.

About us

InterTradelreland is the only organisation which has been given responsibility by both Governments to boost North/ South economic co-operation to the mutual benefit of Northern Ireland and Ireland. By encouraging better use of our collective resources we help to expedite trade and business growth across the island and create an environment where it is easier to do business. We support SMEs across the island to identify and develop North/South trade and innovation opportunities.

We do this through:

- Business programmes
- Research and statistics
- Networks and partnerships

InterTradeIreland will endeavour to facilitate requests for alternative formats of this publication including Irish Language, Ulster Scots, Braille, disk and audio cassette.
